

## Auction Bag Tutorial

Hey guys I'd like to go over how bags should be marked for auction. (see pic)

They need to be clearly marked with seller # which is your membership # also bag number that corresponds with auction sheet and contents of bag whether it be fish name or plant name and quantity and minimum \$ amount.

If item such as filter or tank is being sold it too needs a label on it.

If you are not a Paid member a # will be issued to you day of auction or you can contact Jimmy Jobes prior to auction and # will be issued (Just a hint bags are much easier to mark before adding fish or plant into)

Bags improperly marked will be either re-done by seller (Time Permitted ) or rejected and returned to seller. Sorry but it completely slows auction when bags are un-readable and improperly marked. If anyone has any questions feel free to contact Jose Fadhel, Jimmy Jobes
